

**Highland High School**  
**Minutes of the School Community Council**  
**March 7, 2018**

The regular meeting of the Highland High School Community Council (SCC) was held at Highland High School, Principal's Office, 2166 South 1700 East Salt Lake City, Utah convening at 5:10 PM.

Present:

Chris Jenson, Principal  
Sue Alder  
Mary Lane Grisley  
Joan Lind  
Bruce Simpson  
Deidre Straight  
Christina Leavitt

Chairperson Lind welcomed all attendees.

SCC Items of Business:

- The purpose of this meeting was to discuss the EEP and Trust Land Plan drafts, as well as review the data provided by Principal Jenson and make recommendations for the allocation of trust land money.
- The Council determined that several of the programs that were in place at the school were doing well since improvement had been made in many target areas. Because of this, the Council decided to recommend that trust land money be used to expand those programs that the Council believed were related to the improvements.
- Some money will again be used for the Freshman Success program, and to further expand some more of the components of that program into the upper grades.
- Some money will be used for Professional Development to ensure that the PLCs at Highland are incorporating AVID structures.
- Some money will be used to further update technical hardware since there is constant aging out of old hardware.
- Most of the money will be used to add class sections to reduce class sizes in critical areas. At least 8 class sections will be added, and the SCC and SIC will share responsibility to determine which sections are most critical to be added.
- Once these recommendations have been integrated into the EEP and Trust Land Plans, they will be circulated to the Council for review and comment.

Being that there were no additional items for discussion, the meeting was adjourned at 7:50 PM. The next regular meeting is scheduled for **April 11, 2018 at 6:30 AM.**
